WE HAVE FOUND A MLM GATEWAY TO A GLOBAL INTERNET FORTUNE!

The biggest issue for someone new to this industry is recruiting in MLM and that is a fact. Most find it very difficult to even ask people they have know for years to join their business and more so strangers. The MLM industry is filled with enthusiastic and passionate sale people that are afraid to ask the ice breaking questions, such as:

- Would you be open to exploring a new income opportunity?
- Ever felt you should be doing something else?
- Ever wish you could travel more?

But, what if I could share with you a platform where you are able to socialize with people who are already interested in joining your MLM business?

High quality MLM leads is the key to success

A close friend of mine told me that, "The Money is in the list", which is so true. Stressing about getting that one person into your business is just a waste of time and energy. Building your list is always going to be the key to success, but what if the list was already made and waiting for you to access it?

That would be great wouldn't it?

If you could find a place that could offer you the opportunity to reach out to people that are desperate to join your business and fully understand what MLM is all about.

That would be amazing, won't it?

If you could find a online system that was similar to LinkedIn or Facebook and would allow to reach out to people in your area or anywhere else.

That would give you a serious advantage over others playing at MLM, won't it?

MLM gateway is the solution to recruiting in MLM

This website is a portal or as they like to say, a gateway to people who are already running MLM businesses and in most cases looking for a second or third income stream. Your job is to take advantage of this portal. Once you have joined you can ask members to join your business before someone else gets there.

Examples

Someone may be a successful network marketer, but has time to run something else. This platform will give you the access to these individuals.

There are people that have worked in the industry and had a rest bite, but looking to get back into MLM again. These people may be despite for a new business opportunity.

The handy thing about this gateway is that you can connect to professional network marketers in the niche you are looking for. In addition, avoid the type of marketers you are not looking for. A good example is of course is finding someone in your area while at the same time offering the produces you are sharing. A marketer who is interested in health and wellness products is more likely to see the advantage of adding a similar product to their business than maybe financial or cryptocurrency services. So. the ability to target the right people for your business is a major asset in this MLM social media global format.

I have personally been in MLM for over 20 years and I can already see that this recruiting portal is a great resource for people new to MLM. This is even a great place to start if you are simply browsing for your first home based opportunity and want to ask questions about how MLM works in reality. Unfortunately, there are many misconceptions that a discussion with people in the know will be able to help you with.

There are only a few platforms that have so many targeted MLM leads in one place. This gives everyone the opportunity to meet like minded people from all over the world.

Is there any other ways of getting free MLM marketing leads for my business?

Well, you can join MLM gateway for FREE and try the platform out and see if it fits in what you are already doing. There are many things I have found useful on this platform such as the ability to reach out to local reps in my area. The platform allows you to reach out to one member a day for FREE, however if you share this site on Facebook you receive five credits, which allows you to reach out to five members. In addition, if you create and publish a business announcement of your business or product you also receive five credits. Business announcements is a great way to share your business with the others by writing an short article (minimum of 400 words). The main and the most profitable way to earn credits is by referring others. This can be done via social media, blogs and if you have a mailing list, by sharing the power of this platform with your warm leads.

There is banner advertising possibilities which again uses credits. The cost depends on the type and size of your choosing advertisement.

What is the true cost of recruiting in MLM gateway?

Good question, because even though this platform is completely FREE, it is possible to upgrade for For ONLY \$29 a month. I am not going to say, "Yes, you must upgrade!" because that is unfair for me to say that this platform will work for you. What I will say is, if you are new to the MLM industry you should try it out and if you can recruit with the FREE system then consider upgrading and take advantage of the premium features. Such as:

- 50 Credits added to your account every month
- Contact more members who want to join your business
- Generate leads with lead capture landing pages
- Access all marketing training courses
- Be listed on the featured professionals page
- Place a link to your website on your MLM gateway profile
- Display a video on your gateway profile
- Make your complete gateway profile visible to all
- No ads shown on your profile and announcements
- See how many people and who views your profile
- Get more credits for referrals and articles
- Get priority support 24/7

What are the reviews like?

On the whole and after much browsing of the internet the global reviews seem very positive as MLM lead systems go. Normally, I will find someone unhappy with the platform or service. Many agree that you pay for what you get and if you are paying nothing and getting some benefit from recruiting. In most cases, the customer is happy.

In my view, if you are looking to build a MLM business and you need two or three good network marketers who will ask the right questions then this MLM recruiting platform is for you.

In reality, we all have people in our downline that truly want to be successful, but can't find it in themselves to do what it takes. It may come down to:

- Lack of understanding in MLM
- Unwillingness to learn more about the MLM industry
- Believe life is getting in the way of them taken action

The benefit of this platform is that there is a great possibility that the members have the right stuff and understand MLM, want to learn and have already taken action.

The main benefits of MLM gateway

Beyond the possibilities of getting free targeted leads for your MLM business, there is other assets worth considering.

- As a MLM social media platform it has an fantastic ranking score on Alexa
- You won't need to worry about being a spammer or getting banned
- It is a no brainer that the best people recruit into your MLM business is already a network marketer
